Subject: Paranoid Creek Falls

To: [REDACTED]

Hello [REDACTED]

I have decided not to proceed with the application for a Section 57 for the Paranoid Creek Falls Trail for the following reasons:

- There is a high probability that it will receive a negative reply for the Squamish Nation
-
- Development of this trail may inadvertently and unintentionally increase use in Garibaldi Park, in spite of our efforts to the contrary.
-
- The majority of the trail is on existing roads which may remain cleared without the need for a section 57.
-
- The Watersprite lake Trail follows the same route for some length and a Section 57 for this trail will serve to maintain access.
-
- Access to the falls from the end of these roads is a short walk through mature forest which doesn't require the construction of a trail
-
- The proposed trail has a relatively low recreational value.

If you would like to discuss this further please contact me, have a merry Christmas and a happy new year.

Mòran taing, Many thanks,

(please reply with the same subject line)
